The California School Directory and related public school and district data files (collectively referred to as directories) contain information about California schools, districts, and school/district administrators, and local educational institutions (LEA) voluntarily self-report to the California Department of Education (CDE) for public convenience. Because the information is self-reported voluntarily, the directory does not contain information for each LEA, which can result in out-of-date information in the directory, errors, omissions, typos, or other inaccuracies. Therefore, the lack of information or information in the directory is independent of any purpose and should only be used to contact the LEA. CDE does not make any express or apocalypse statements or warranties with regard to directory information. For LEA certification, please visit the U.S. Department of Education's Certification and Quality Assurance web page. Students here are doing about the average academic improvement of the year-on-year. Students at this school have averaged academic results from the first grade to the next year compared to students from other schools in the state. Average progress with low test scores means that students are starting at a lower point, but are progressing at about the same speed as colleagues at other schools in the state. The score of this school's parent tip test is below the state average. This suggests that most students in this school may not be performing at the grade level.
